

DuoSlim

**Content visible
from both directions.**

Two display faces in a 26 mm deep cabinet.

Indoor suspended display

Two faces, one modular structure

Independent content

The two sides can show different video content at the same time, for audiences approaching from either direction.

Compact construction

Four 250 × 250 mm modules form each face. Direct module connections and optional GOB protection support the selected build.

Configuration at a glance

Parameter	Available configurations
Pixel pitches	P1.56 / P1.9 / P2.6 / P3.9
Cabinet W × H × D	500 × 500 × 26 mm
Module size	250 × 250 mm
Refresh rate	3,840 Hz
Display faces	Two; independent content supported

Indoor use. Plan the suspension structure and access to both display faces.

Plan your DuoSlim project

Project context	Provide the display size, viewing directions and suspension height.
Technical needs	Share the content required on each face and the control arrangement.
Details to confirm	Confirm mounting loads, power routing and module access.
